

TANURI MANDINI

INTERN SOFTWARE ENGINEER

+94717918084 | tanurims@gmail.com | tanurims.netify | LinkedIn | GitHub

PROFILE

A Computer Science undergraduate with a strong foundation in full-stack web development and hands-on experience from a six-month software engineering internship. Skilled in building responsive web applications, integrating APIs, and working with hardware-specific drivers. Eager to apply a blend of academic knowledge and practical experience to a software engineering role, with a passion for continuous learning and contributing to impactful development teams.

EDUCATION

University of Colombo School of Computing

May 2023 - May 2026

B.Sc. in Computer Science

GPA: 3.4/4.0

Courses: Software Engineering, Data Structures and Algorithms, Database Management Systems, Object Oriented Programming, Middleware Architecture, Mathematical Methods, Software Quality Assurance.

St. Mary's Convent Matara School

Jan 2008 – Feb 2022

GCE Advanced Level: Physical Science Stream: Achieved Grades A, A, B

GCE Ordinary Level: 8A's including Mathematics, Science and English, 1 B

WORK EXPERIENCE

Zebra Technologies Lanka (Pvt) Ltd

November 2025 - May 2026

Intern Software Engineer

- Developed, tested, and maintained Zebra Scanner SDK drivers for Windows using C++ and Java, ensuring compliance with the Unified POS (UPOS) standard.
- Contributed to the development, enhancement and testing of the Zebra 123Scan utility and the Scanner Management Service (SMS), improving usability and functionality.
- Gained experience in debugging hardware-software interactions to resolve technical issues for peripheral devices and participated in updating technical design documents.
- Collaborated with team to deliver software updates and patches, participating in code reviews in GitHub and sprint planning.

PROJECTS

WE4U | Elder Care System (GitHub)

May 2024-April 2025

- A web-based platform to enhance elderly care in Sri Lanka by connecting careseekers, caregivers, and consultants under a unified system. (2nd year group project)
- Technologies - PHP (no framework), MySQL, XAMPP, HTML, CSS, JavaScript, Stripe, MVC, PHPMailer
- Contribution - Requirement gathering, analysis and design. Developed major frontend components. Implemented role functionalities for caregivers, integrated payment gateway (Stripe), and contributed to backend logic related to caregiver operations.

MediMeet | Full Stack Doctor Appointment Booking System (GitHub)

February 2025 – October 2025

- Full-stack doctor appointment booking platform with Patient, Doctor, and Admin roles; includes appointment scheduling, online payments, and dashboards. (Personal learning project)
- Technologies - React.js, Node.js, Express.js, MongoDB, JWT, Stripe, Cloudinary
- Contribution - Sole developer. Implemented complete authentication using JWT for patients, doctors, and admin. Designed responsive dashboards for all roles and handled role-based access control, profile management, and appointment management features.

PillPath | Smart Pharmacy Connection Platform (Frontend) (Backend)

June 2025 – October 2025

- Web-based platform to connect patients with nearby pharmacies for prescription uploads, OTC purchases, and medication management. (3rd year group project)
- Technologies - React.js, Tailwind CSS, Spring Boot, PostgreSQL, Leaflet Maps, Recharts, Stripe, Cloudinary
- Contribution - Developed frontend interfaces for the system admin panel and parts of the homepage. Set up the frontend folder structure. Currently working on backend functionalities for the admin panel using Spring Boot.

MovieFlix | Modern Movie Browsing Web App (GitHub)

June 2025

- A responsive movie browsing application that fetches real-time movie data from TMDb, allowing users to explore popular titles, view detailed information, and manage a list of favorites. (Personal learning project)
- Technologies - React JS, CSS, TMDb API
- Contribution - Sole developer. Designed and implemented the entire frontend using React. Integrated TMDb API to fetch movie data. Built features including genre filtering, light/dark mode toggle, detailed movie views, and responsive design.

QuizApp | Backend Quiz Application (GitHub)

August 2025

- RESTful API application for quiz management with CRUD, category/difficulty filtering, and automated scoring. (Personal learning project)
- Technologies - Spring Boot, PostgreSQL, REST API
- Contribution - Sole developer. Designed and implemented RESTful endpoints for quiz management. Built CRUD functionality for questions, category filtering, and difficulty levels. Implemented quiz creation, submission, and scoring logic.

COURSES & CERTIFICATIONS

- 2026 LinkedIn, Become a Six Sigma Yellow Belt ([Certificate](#))
- 2025 LinkedIn, Six Sigma Foundations ([Certificate](#))
- 2025 LinkedIn, Building RESTful APIs with Node.js and Express ([Certificate](#))
- 2025 LinkedIn, Prompt Engineering: How to Talk to the AIs ([Certificate](#))
- 2025 Postman, Postman API Fundamentals Student Expert ([Certificate](#))
- 2025 University of Moratuwa, Python for Beginners ([Certificate](#))
- 2025 Google Cloud Skills Boost, Introduction to Generative AI ([Badge](#))
- 2024 University of Moratuwa, Web Design for Beginners ([Certificate](#))
- 2024 Amazon Web Services (AWS), AWS Educate Introduction to Cloud 101 ([Badge](#))

SKILLS

Languages: Java | C++ | C# | JavaScript | PHP | C

Web Dev: React | Spring Boot | Node.js | Express.js | Tailwind CSS

Databases: PostgreSQL | MySQL | MongoDB

Tools & Expertise: Git/GitHub | Postman | Windows JPOS/OPOS Drivers | Zebra 123Scan | REST APIs

HACKATHON PARTICIPATION

- 2024 **ReidXtream**, University of Colombo School of Computing (participant)
- 2025 **Idealize**, University of Moratuwa (participant)

VOLUNTEERING

- Pahasara Media Club of UCSC (2023-2025): Member
- ACM Student Chapter-UCSC (2023-2025): Member
- Abhina Drama Circle-UCSC (2025-Present): Member
